

Residential Builders use SiteConnect to manage Health & Safety Compliance on-site.

Customers who have adopted SiteConnect have successfully moved away from a paper-based system in their organisation.

This has led to significant improvements to Health & Safety engagement on-site and saved significant time in the administrative processes of Site Management and Health & Safety.

Together, we are working with NZ businesses to improve the culture around Health & Safety, to make it simple to use and accessible for all workers on site.

Our powerful toolkit covers all areas of Site Management and Health & Safety to ensure we are your one stop shop.
