

SiteConnect helps you manage your sites for Health & Safety Compliance

SiteConnect provides a clever risk communication solution that helps all types of businesses track their workforces and meet the most important requirements of the 2015 Health & Safety at Work Act – to inform visitors about the risks and hazards of that site – and to gain specific acknowledgement of these.

Smart use of Mobile App technology and GeoFencing tells you where your contractors are, for how long and when they left.

SiteConnect tracks contractors with time and date stamped reporting of site entry and exits and an ability to 'see' a contractor on your property via the administrator's portal – particularly useful for larger properties.

Site managers give contractors SiteConnect free to keep them safe, and to gain essential acknowledgements of risks and hazards.

Our powerful toolkit covers all areas of Site Management and Health & Safety to ensure we are your one stop shop.
